Everything Standards-Based

Parent Meeting

October/November 2023

A Point of Clarification

The outcome of today's meeting is not to change the system, rather to provide you with information to support your understanding of the system.

What is Standards-Based Instruction

A Brief Overview

What Is It?

Standards-Based Instruction means teachers intentionally plan their teaching and assessments based on course standards/competencies.

What Stays the Same?

- Grades are on a 100-point scale with a 50 floor.
- Grades can range from A, A-, B+, B, … to F.
- Grades are recorded in SIS.
- Students have deadlines to turn in work.
- Honors, AP, and Dual Enrollment classes have a GPA incentive or "bump"
- Transcripts will look exactly the same

How Are Grades Calculated?

Grades for each standard will be determined by the following criteria:

a) Most recent performance on standard (including retake opportunities), particularly if there is a change in rigor.

ex. Assessing student ability to identify theme in a children's book as an entry point and later requiring them to do the same for a class novel.

a) An average (mean) of performances on the standard if there is a necessary change in setting or medium.

ex. Assessing the same art standard through three required media: watercolor, acrylic paint, and charcoal.

How does Standards-Based Instruction Help?

- Teachers will be fully aligned on WHAT they are teaching so they can collaborate on HOW they are teaching.

- Students, Parents, and Teachers will know exactly what students know and are able to do. Academic support can be targeted and purposeful.

- Retakes can be offered in the form of formative opportunities and as reassessments on specific standards where the student did not perform well, rather than a full test retake.

While we have been learning and practicing most of our 7 standards, the two that we have focused on for Q1 are Standard 1 (Reading fiction and non-fiction texts) and Standard 4 (Vocabulary).

Students should continue to work on context clues practice in preparation for our upcoming assessment retake.

What Should You or Your Student Do Next?

What Should You or Your Student Do?

- Pay attention to those missing assignments – even Formative Assignments.

- Take a look at the notes on your student's progress reports. You will see information about what to do with a grade that might be unsatisfactory as well as helpful information about what how to read what is on the report.

A Note About Transcripts & Senior Grades

Transcripts & Senior Grades

- Transcripts will still only show the final grade at the end of the school year. Quarterly grades have never appeared alongside final grades.

- Senior "7th Semester Transcripts" will be sent to colleges of their choice. These transcripts will show grades after the 1st semester this year. Teachers/Staff are well-aware of the importance of these grades.

- Eligibility is typically determined at the semester mark for student activities. Teachers/Staff are well-aware of the importance of these grades.
